FRIZBI

PROJECT STATUS REPORT

PROJECT SUMMARY

REPORT DATE	PROJECT NAME	PREPARED BY
09-06-2022	FRIZBI	Team FRIZBI

STATUS SUMMARY

Created UI design with prototype and completed the first step towards building the application. Front-End login page is being build using Flutter and Dart using Android Studio.

PROJECT OVERVIEW

| TASK	% DONE	NOTES
Research	90%	License and security issues are still under research.
UI/Prototype	100%	Completed UI and attached mockup.
Front-End	10%	Login and profile page under progress.

RISK AND ISSUE HISTORY

ISSUES
• Ad Blockers.
• Mods (Modified apps or scripts) that will watch the videos.
• Hacking and security breaches can cause financial as well as a reputational loss for the application.
• It needs to be compliant with all legal requirements of government standards.

UPCOMING WORK

TASK	NOTES
Front-End	Pages are being coded separately.
Backend	Require a senior backend programmer.

MOCKUP

CONCLUSIONS

Application is still under development. Estimated time of completion of a minimum viable product (MVP) is 6-8 months.
